## Intelligent Software For All Commodore Computers

**Copycalc** is an affordable electronic spreadsheet which turns your video screen into a window on a matrix of numbers. Cursor around the matrix, enter numbers; the totals reflect the changes. You can save the matrix to disk or tape, or print it or your printer. For \$20 (\$15 with another program), this program might justify the cost of your computer. Requires 6k RAM; smaller version available for a standard VIC.

**Word Processor Plus** was not designed to be an expensive toy; it was designed solely to facilitate correspondence, for a wide range of personal and business uses, quickly and easily, with a minimum of training and frustration on the part of its user, and at the least possible cost, both in hardware and software. The most thoroughly tested, useable word processor available at anywhere near the price, \$25; 10k RAM, printer req'd.; RS-232C version available for VIC and 64.

Also available: **Baseball Manager**, a sports documentation program; and **Inventory**, a perpetual inventory control program for a small retail business (various reports, multiple vendors); \$30 each; 10k RAM req'd., printer suggested.

Prices include documentation and shipping; Calif. residents add 6%. Please specify hardware configuration when ordering. Sorry, no games available.

## VIC-20 INTERFACING BLUE BOOK

Did you know that your VIC can be used to control a 99¢ toy motor so effectively that it runs like a precision machine? Or that you can build an accurate digital thermometer using the VIC and four parts costing less than \$5?

These and other 18 interfacing projects selected for usefulness, ease of construction and low cost are detailed in the VIC-20 Interfacing Blue Book, a veritable gold mine of practical information on how to build a variety of interfaces for your computer.

Projects include: Connecting VIC to your stereo; Pickproof digital lock; Capacitance meter; Liquid level sensor; Telephone dialer; Voice output; 8K/16K RAM/ROM expansion; 128K RAM expansion; 8-bit precision D/A; 8-bit A/D converter; MX-80 interface and more.

Written by a college professor in a friendly and informative style, the Blue Book gives you theory of operation, schematics, program listings, parts list, construction hints and sources of materials for each one of the 20 projects.

If you want to get the most out of your VIC this book is a must. Cost is \$14.95 (less than 75¢ per project!). Price includes postage.

# VIAC

## VIC INTERFACE TO ANY CASSETTE

This adapter will allow you to connect most any audio cassette recorder to the VIC-20<sup>®</sup>, COM-64<sup>®</sup>, PET<sup>®</sup>, CBM<sup>®</sup> or any Commodore Computers that interface with the Datasette<sup>®</sup>. Although the VIAC is an alternative to the Datasette, it can be a powerful enhancement to your system providing new capabilities.

• Record verbal remarks directly on program tape, save memory space and run under program control.

• Selectable Read Write Polarity allows your cassette to be compatible with most any other cassette including the Datasette.

• Allows playback of audio tape to tape duplications made with another cassette. Much more! This is the original one as featured in the New Products section of COMPUTE! (Oct. 82). Other adapters do not have the features and capabilities of the VIAC. Now only \$44.95.

**New! The VAAB:** Video/Audio Adapter Box. This device in conjunction with the VIAC will allow you to playback the audio portions of your Vic & 64 tapes directly through the TV or monitor speaker and connect to Video Recorder input. Amaze your friends, and your own voice to your programs then play it back through TV speaker. Complete instructions included.

VAAB is only \$24.95, Kit: \$15.95, Plans only: \$5.95.

Combo Special VIAC/VAAB: \$64.95.

Include \$2.50 Shipping/order

Check, Money order, C.O.D. (+2.00), Visa/MC (+4%),

## VIC-20 COMMODORE 64 APPLE II THE RECIPE BOX

Now you can easily store and recall your favorite  
recipes on your Commodore or Apple computer. THE  
RECIPE BOX is a complete menu-driven disk system  
that comes with these additional features:

**SEARCH BY INGREDIENT** — Only have a pound of  
hamburger in the freezer? Let THE RECIPE BOX  
show you all the recipes that you have on file that use  
hamburger, or any other ingredient you choose.

**SEARCH BY CATEGORY** — Code your recipes as to  
breakfast, lunch, dinner, snacks, etc.

**SEARCH BY CATEGORY/INGREDIENT** — Any  
combination of the above.

**AUTOMATIC MEASUREMENT** — THE RECIPE  
BOX will automatically scale up or down the amount  
of ingredients you need according to how many  
servings you want.

**SCREEN OR PRINTED OUTPUT** — Have printed  
copies to use in the kitchen or give to friends.

THE RECIPE BOX requires one disk drive and will  
run on a 5K VIC-20, Commodore 64 or Apple II+.  
Please specify. Send check or money order for  
\$19.95 to:

**Aries Marketing Co.**

111 E. BEECH CRT.  
ALTOONA, PA. 16601

\$16.95

## VIC-20 software REPEL is 100% machine language and costs only \$10!

This great game fits on your VIC-20! REPEL has: high-resolution graphics used on the "laser-cannon"; four skill levels; keyboard and joystick compatibility; instructions on customizing REPEL (you can adjust the speed of your laser, the speed of the aliens, the number of "lives" one gets when a game is started and much more!); full color and great sound effects; and FREE POSTAGE! Price: \$10

AVOID resembles other "snake" games, however, in AVOID you must avoid dots which randomly appear on the screen. AVOID is very responsive since it reads your commands (down, right etc.) from the keyboard buffer. AVOID has: a 3-dimensional matrix, which divides each byte of screen memory into 4 parts, giving AVOID a resolution of 2024 dots (four times greater than similar games); keyboard and joystick compatibility; and FREE POSTAGE! Price: \$10.00

Send money order for same-day shipping. Personal checks take two extra weeks. We also sell \$6.00 games. Write for free information. Send a SASE for quick reply.

## COMPUTE!'s FREE Reader Information Service

Use these cards to request FREE information about the products advertised in this issue. Clearly print or type your full name and address. Only one card should be used per person. Circle the numbers that correspond to the key number appearing in the advertisers index.

Send in the card and the advertisers will receive your inquiry. Although every effort is made to insure that only advertisers wishing to provide product information have reader service numbers, **COMPUTE!** cannot be responsible if advertisers do not provide literature to readers.

Please use these cards *only* for subscribing or for requesting product information. Editorial and customer service inquiries should be addressed to: **COMPUTE!**, P.O. Box 5406, Greensboro, NC 27403. Check the expiration date on the card to insure proper handling.

## EMPLOYMENT OPPORTUNITIES

For around \$100, the Commodore VICMODEM will turn your VIC 20 or Commodore 64 computer into a telecomputer.

To make matters even better, Commodore includes a few little extras (such as a free hour's time on the two most popular telecomputing services) that add up to a value of \$197.50\*. A nice return on

Most computer companies think it's reasonable to ask as much as \$500 for a modem that'll give you telecomputing capabilities such as ours.

However, with a VICMODEM priced at around \$100, we think we're being a lot more reasonable. Don't you agree?
